Profile Summary

- Frontend Developer with a strong focus on **front-end technologies** and expertise in **React.js**, creating scalable applications.
- Skilled in optimizing web applications for **performance** and **responsiveness**, with a focus on user-centric designs.
- Proven ability to collaborate effectively in team environments, manage time efficiently, and troubleshoot technical challenges.
- Expertise in **React.js**, **TailwindCSS**, **MongoDB**, and using **Agile methodologies** to deliver high-quality projects on time.

Technical Skills

- | | | | |
|------------|---------|---------------|---------------|
| • HTML | • CSS | • JavaScript | • TailwindCSS |
| • React.js | • Figma | • Postgres | • MongoDB |
| • Node.js | • DSA | • Java | • C |
| • Python | • ML | • G i t H u b | • D B M S |
| • OOPS | • O.S | | |

Projects

Portfolio Website | React.js, Vite, Tailwind CSS | [View Website](#) | GitHub Repository

Apr 2025

- Built a sleek and fully responsive personal portfolio using React.js and Tailwind CSS for modern UI components.
- Integrated Framer Motion to create smooth and engaging page transitions, enhancing user experience.
- Connected contact forms with Email US to enable direct email functionality without server-side coding.
- Focused on clean code architecture and optimized performance to ensure fast load times across all devices.

Blogs Website | React.js, Vite, TailwindCSS,Swipe.js | [View Website](#) | GitHub Repository

Mar 2025

- Designed and developed a clean, responsive blogs website using React.js and Tailwind CSS and custom Json data for a modern UI.
- Created multiple static blog pages with smooth navigation using React Router for a seamless user experience.
- Focused on modular, reusable components to maintain consistency and make future scalability easier.
- Optimized the website for fast loading times and enhanced user engagement across all device sizes.

Farmer's Field to Market | React.js, Vite, TailwindCSS Responsive Design | [View Website](#) | GitHub Repository

Feb 2025

- Developed a fully responsive website connecting farmers directly with local markets to promote fresh produce sales.
- Built with React.js and styled using TailwindCSS, ensuring fast performance and maintainable UI code.
- Implemented responsive grids and flex layouts to ensure smooth user experience across mobile, tablet, and desktop devices.
- Prioritized visual clarity, intuitive navigation, and minimalistic design to enhance user experience.

Education

GLA University
Bachelor of Computer Applications (Specialization: Data Science)

Expected Graduation: April 2026
Mathura

Extra Skills

• Strong Problem-Solving Skills

Demonstrated ability to break down complex problems and develop efficient, scalable solutions. Proficient in data structures and algorithms with hands-on experience solving 100+ problems on platforms like LeetCode. Adept at analytical thinking, debugging, and optimizing code for performance.
